Re: Consideration of Appointing a Member of the City Council to Serve on the River to Sea Transportation Planning Organization as the City Representative

Date: November 3, 2020

The River to Sea Transportation Planning Organization serves as the primary forum within which member local governments and citizens voice concerns, identify priorities and plan for transportation improvements for all modes of transportation – roadway, public transit and bicycle and pedestrian facilities.

The River to Sea Transportation Planning Organization Board consists of elected officials from the member local governments. These dedicated individuals are responsible for working together to improve the safety and efficiency of the transportation system in this area.

Councilmember Ralph Schoenherr was the City's representative on this board. Since he will no longer be a councilmember, the City Council will have to appoint another representative to protect and represent South Daytona's interests on this Board. Traditionally, a member of the City Council is nominated by another member and then all vote to ratify the appointment. Once this has been done and another representative has been chosen, staff will update the TPO Board of the change for future meetings.
