

City of South Daytona
Landscaping Services
BID NO. 23-B-008
Addendum #1

Tuesday, March 21, 2023

Questions received (answers from the City are in **Red**):

- Did you want bucket seats for (2-5 yr olds) in one bay or did you want belt seats for (5-12) yr olds in one bay? The information is a bit conflicting. **Yes**
- Did you want the imprints although expanded to stay as they are? As in the playground to go back where the playground is now, same for swingset? Or could we install a play unit where the swings currently are and swings where playground currently is if there is sufficient room? **All of those options are fine**
- Does the bond requirement need to be included in the \$220,000 budget? **Yes**
- By shade cover, did you want a freestanding shade or inclusive shades attached to the playground itself? **It can be incorporated into the playground to save budget**
- Are we demoing the old equipment, including signs? Are we demoing the existing picnic tables and pads to be replaced with new, or are the tables and pads to remain? Also is the bench and table opposite the swingset area to be demo'd and replaced? Or does that remain as is. **We will demo all playground, picnic tables, benches and pads all to be replaced**
- Also, is the retaining wall in the swingset area to remain as is? **Can be changed if needed.**

Clarification from staff: As there are some site restrictions, the selection committee will thoroughly examine all submittals and recommend the submittal best suited for this park and our community. Creative designs are encouraged and if elements (ie: swingset or climbing structures) do not fit within your design, please still submit. The main consideration will be the fishing theme and the best design for our park and residents.
