Item 17. Consideration of awarding the Riverfront Veterans Memorial Park Pavilion Improvements (Bid 22-B-002) to Bliss Products and Services in the amount of \$14,673 utilizing Community Development Block Grant (CDBG) funds as identified in the current fiscal year.

City Manager Gillis explained this is part of the continued improvements at Riverfront Veterans Memorial Park. He recalled the city recently replaced the playground and swing set and to further enhance the park, pavilion improvements were planned for this year. Bids to replace the existing picnic tables within the two pavilions were solicited and were lower than anticipated, he explained. Mr. Gillis said Bliss Products and Services was the lowest responsible bidder in the amount of \$14,673. This project is utilizing Community Development Block Grant (CDBG) funds provided by Volusia County. He explained if the City Council awards the contract as recommended, the project should begin demolition of the imbedded picnic tables in the next few months and the project should be completed over the summer.

Councilman Eric Sander commented he liked the design of the playground.

Councilman Brandon Young concurred with Councilman Sander and asked the useful lifespan of this type of playground equipment.

City Manager Gillis answered the lifespan is typically 20 to 25 years with proper maintenance, noting our coastal climate could shorten the longevity.

Councilman Young reiterated maintenance is the key, but we should budget a replacement in approximately 15 years.

Imperial Pest Prevention, a local company was determined to be the lowest, responsible bidder with an annual cost of \$7,896 which will equate to an annual savings of approximately \$9,000 per year. City Manager Gillis thanked Deputy City Clerk Witte for initiative in soliciting the bid and working towards this consolidation of services. Recommended by the Planning and Appeals Board on March 16, 2022. **First Reading. Public Hearing.**

City Manager Gillis said this is a request by All Aboard Storage to add two buildings to their facility on Big Tree Road. During review, staff noted the business was located on five (5) parcels in two zoning classifications, he said. Staff worked with the property owner to combine the five (5) parcels through a Lot Combination Agreement, encouraged them to install enhanced landscaping along Big Tree Road and added a requirement that any new building construction along Big Tree Road will be architecturally treated with non-metal building materials (ie: wood, stucco, stone, brick, glass or masonry design) for an improved appearance. City Manager Gillis stated if approved the zoning designation would be uniform, the parcels would be combined, and the Master Development Agreement would be approved.

Recommended by the Planning and Appeals Board on March 16, 2022. **First and only Reading. Public Hearing.**

City Manager Gillis said this is the old Price property which is zoned multifamily residential. He said the property has sat vacant for many years and is ideal for a town home development as it is sandwiched between Big Tree Shores Mobile home community and Oak Meadows Townhomes. He explained the Preliminary Plat is the first step, since the townhomes will be individually owned. Mr. Gillis said the developer will include an internal dog park and the roads and utilities within the development will be private. He explained staff included a clause within the Plat that states a special assessment will be imposed if the individual townhome owners fail to maintain the roads and utilities in the future. City Manager Gillis said this development is similar to a new townhome project in Ormond beach which he visited along with Redevelopment Director Rippey and Community Development Director Kornel. He concluded the proposed development enhances the character of the city and the neighborhood, with a staff recommendation of approval.
