City Manager Gillis explained with limited lots remaining within the City of South Daytona, it is critical new homes are compatible within our existing neighborhoods. The standards reiterate the City's goal of promoting, protecting and maintaining the City's residential character and small-town atmosphere, he said.

Mr. Gillis highlighted the requirement for six (6) corners which create a multidimensional, attractive exterior to the home, a substantial front porch, and a two-car garage with a driveway at least 20 feet in length to address parking issues.

City Manager Gillis said these regulations will foster community pride and are compiled based on the communications received from residents and the Council.

City Manager explained this is a housekeeping item and each year staff works with the National Flood Insurance Program to achieve a community rating. To maintain, or potentially improve our NFIP Class, they are requiring the city to update our Code.

Mr. Gillis explained FEMA requested the modifications to the Ordinance which sets flood standards for accessory structures, as well as requires manufactured homes to be installed above the flood elevation as outlined in the Florida Building Code.

Mayor Hall opened the public hearing. No comments were received. Mayor Hall closed the public hearing.

Motion to approve by Councilwoman Lisa O'Neal. Second by Councilman Eric Sander. Motion carried unanimously.

Item 14. Ordinance No. 2022-08. An Ordinance of the City of South Daytona, Florida, amending the City of South Daytona Code of Ordinances, Section 10.5-2 Rules and Regulations for Parks and Recreation Areas to prohibit commercial activities at city owned boat ramps; and providing for conflicts, severability, applicability, codification and an effective date. First Reading May 10, 2022. Second and Final Reading. Public Hearing.

City Attorney Vose read the title of Ordinance 2022-08.

City Manager Gillis said recently, staff became aware that a neighboring municipality had received complaints about commercial activity monopolizing their boat ramps. He explained if that city continues to receive pressure from their residents about the commercial activity; they may consider banning all commercial activities at their public boat ramps and those commercial entities will be looking to our boat ramp to possibly monopolize.

With this in mind, staff believes we need to preserve our boat ramp for residential recreational use only and consider regulations prohibiting commercial use within Section 10.5 of the City's Code of Ordinances, Mr. Gillis said. He said this would be a tool in our toolbox if commercial activity overwhelms our ramp. He explained signage would be placed at the ramp and if violated there would be a \$500 fine.

He explained he received an update that the neighboring municipality will not enact an ordinance but will erect signs at the ramp.

Mayor Hall opened the public hearing.

Wesley Barnes (Boy Scout Troop 477) questioned signs in lieu of adopting an ordinance. City Manager Gillis discussed the Ordinance would be a municipal law, but the neighboring city plans to rely on regulations within the grant they used to construct the boat ramp. He said we feel strongly about this rule and will adopt a law as well as erect signs. Mayor Hall thanked Wesley for his question and interest in our community.

Mayor Hall closed the public hearing.

Motion to approve by Councilman Eric Sander. Second by Councilwoman Lisa O'Neal. Motion carried unanimously.
